

CHILD RIGHTS GOVERNANCE

Save the Children works closely with the government and civil society organizations to ensure the duty bearers and related stakeholders are being accountable for what they have committed to child rights and to make the rights of children in all circumstances a reality. We advocate for the integration of child rights into business principles of private sector companies and empower children, make their voices be heard in the decision-making processes on issues that affect them.

DISASTER RISK REDUCTION AND CLIMATE CHANGE ADAPTATION

We build the resilience of children and their families who are hardest hit by impacts of climate change across the country to address its negative effects on their lives. We champion children's voice and leadership as part of solutions to climate change mitigation and adaptation. Our programs include promoting safe school model, in-kind assistance and cash transfer program, promote child-centered and community-based climate change adaptation.

TOGETHER FOR A FAIR, GREEN AND EQUAL WORLD

Save the Children

We do whatever it takes for children
- every day and in times of crisis -
to transform their lives and the future we share

OVERVIEW

Save the Children is one of the leading independent global organizations for children. We have been working in Vietnam since 1990 and supporting children and families in 6 key program areas: Education, Health and Nutrition, Child Protection, Child Rights Governance, Child Poverty, Disaster Risk Reduction and Climate Change Adaptation.

We believe that EVERY CHILD deserves a bright future. Our mission is to inspire breakthroughs in the way the world treats children to achieve immediate and lasting changes in their lives.

By 2030, our ambition is to achieve 3 breakthroughs for children around the world:

- **SURVIVE:** No child dies from preventable causes before their fifth birthday.
- **LEARN:** All children learn from a quality basic education.
- **BE PROTECTED:** Violence against children is no longer tolerated.

WE BELIEVE THAT EVERY CHILD DESERVES A FUTURE

EDUCATION

Save the Children works to increase access to quality learning for the most deprived children and youth. We focus on Emergent Literacy and Math skills, Building Brain, provide Basic Education and Adolescent Skills with evidence-based, adaptable, and replicable common approaches. In all areas, we support and integrate different digital transformation solutions to maximize learning opportunities for every child.

CHILD PROTECTION

Save the Children targets children and youth most impacted by inequality and discrimination and works to protect them from all forms of violence, exploitation, and neglect. We help children gain better access to a quality and child-friendly learning environment via rights-based, child-led and system-based approaches. Besides, we advocate for application of Positive Discipline in caregivers, in collaboration with key duty bearers for the longer-term sustainability of initiatives.

HEALTH & NUTRITION

Save the Children has strong working commitments with national counterparts and local partners to improve the most vulnerable children's health and nutrition, including adolescent sexual and reproductive health as well as mental health. We help to reduce child malnutrition rates in poor mountainous areas, improve the health of mothers and newborns, and improve children's knowledge and skills in school health and nutrition.

CHILD POVERTY

Save the Children alleviate child poverty by supporting to increase access to quality learning (including digital literacy) for children and youth most impacted by inequality and discrimination. We provide sufficient knowledge and skills to help children and youth have successful transition from school to work and be able to pursue career development opportunities fairly and sustainably.
